	AX10		
	logenix	Nil	Nil
	Oasis Series 2000	Panton Plumbing	Panton Plumbing
		HB Wastewater Management	HB Wastewater Management
	Wright Protech 10,000 (was entered into Trial 10, had technical issues part way through so failed)	Effluent Management Systems	Effluent Management Systems
		Wright Tanks	Wright Tanks
		SWD Wastewater & Drainage Ltd	SWD Wastewater & Drainage Ltd
	Eco-cycle Home Sewage Treatment Plant (see also Eco-cycle Fusion Trial 10)	Nil	Nil

¹Accredited through OSET trials Rotorua

90% of all test samples must achieve:

BOD₅ of < 20 g/m³

TSS of < 30 g/m³

Not one result for:

BOD₅ being >30 g/m³

TSS being >45 g/m³

²Accredited through HBRC testing programme (this programme ended 30/6/11)

The aggregated BOD₅ and TSS results from that testing had to meet the following criteria:

50% of the samples taken shall be less than 30 gm/m³

75% of the samples taken shall be less than 40 gm/m³

NB this criterion is more generous than the OSET trials above.
