POSITION SUMMARY

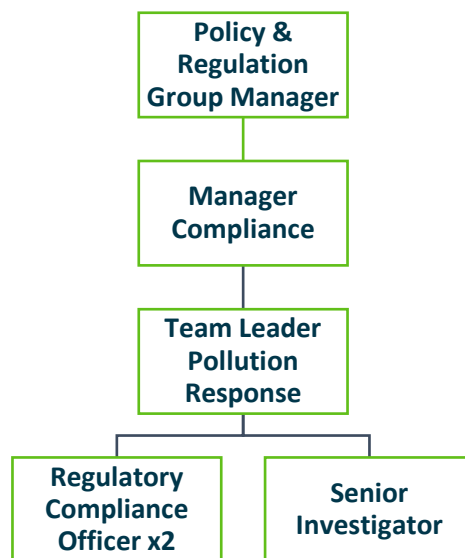

The role of the Regulatory Compliance Officer within the Policy & Regulation Group is responsible for ensuring that Council efficiently and effectively responds to pollution events within the region and delivers appropriate solutions and outcomes aligned to relevant regulations and consistent with HBRC's enforcement policies. The role will require investigation of non-compliance and ensuring, when required, that the appropriate level of enforcement is undertaken. Any enforcement activities must be robust, defensible and an effective option. There will be a requirement to prepare case files for prosecutions through legal counsel and the Courts in cases of serious non-compliance. This will be under the support and guidance of the team leader. There is a requirement to be part of the after hours pollution response roster.

GROUP AND TEAM GOALS:

The Compliance Team provides the following role and functions as part of the Policy & Regulation Group:

- Promote, monitor, and investigate compliance with the Resource Management Act, Maritime Transport Act, any other Act or associated regulations as required and take any appropriate action when necessary.
- Lead and supervise enforcement investigations and prepare and present expert evidence in the Court.
- Provide specialist advice and reports on pollution and resource use in order to input: resource consent application processing; preparation of policy statements and plans; monitoring and reporting of the state of the environment.
- Provide guidance, education and advice on compliance matters to stakeholders including the community, tangata whenua, resource consent holders, interested or affected parties and to HBRC and HBRC staff on the sustainable use of natural resources and regulatory compliance.
- Ensure recovery of compliance monitoring costs.
- Establish and apply procedures for monitoring resource consents.
- Obtain and record evidence in a professional manner that is credible, admissible in Court proceedings and will withstand cross examination.
- Prepare and present evidence, making recommendations for enforcement to the Enforcement Decision Group.
- Provide Compliance input to resource management investigations and policy development as and when required. Be proficient at responding to large scale pollution events to adequately manage the environmental effects and appropriate investigation.
- A 24-hour pollution incident response service.

ORGANISATIONAL CONTEXT

JOB SPECIFIC ACCOUNTABILITIES

- Ensure effective management and oversight of enforcement cases, including the determination of which cases may warrant prosecution action.
- Refer cases as appropriate to the Enforcement Decision Group (EDG) for consideration with supporting documentation that meets quality expectations.
- Ensure that investigations and evidence collection are maintained to a high standard and are compliant with the Evidence Act 2006.
- Undertake compliance investigations of serious breaches of the legislation. This may include covert operations with support and guidance from the team leader.
- Initiate and undertake enforcement proceedings in a timely and accurate manner.
- Be an active participant and key contributor within the Enforcement Decision Group.
- Deal with irate and confrontational individuals in a firm but fair manner. These may be escalated within the team as required.

- Support operational staff throughout the Council who may administer other legislation outside of the Resource Management Act and Evidence Act, such as the Marine and Coastal Area Act, Maritime Transport Act, Biosecurity Act, Land Drainage Act or any other Act. Take a leading role in any enforcement action if required.
- Undertake a variety of other delegated authorities relating to Resource Management Act compliance and enforcement (including issuing and changing abatement notices, giving authority to undertake emergency works, requiring reimbursement of costs for emergency works, applying for search warrants, and issuing infringement notices).
- Contribute to the Quality Management System as part of everyday business practice, including developing, reviewing, and improving business processes, maintaining a strong customer focus and a commitment to the continuous improvement program.
- Ensure timely and effective responses are made to all complaints, including written or verbal response to the complainant in accordance with response guidelines.
- Ensure thorough investigation of possible sources of pollution.
- Effectively determine if any immediate remedial action required to rectify issues and concerns.
- Ensure an effective cost recovery process undertaken.
- Actively participate in the afterhours pollution response roster.
