Description

to take and use water from the Ohiwia Stream or adjacent soakhole to irrigate 10 hectares of viticulture, pasture and orchard

to take and use water from well no. 3010 (100 mm diameter) to irrigate and to frost protect 5.4 hectares of orchard, and for spray filling and wash down use

to take water from well no. 15199 (100 mm diameter) to use in apple water dumps, flumes and general factory and domestic

To undertake plantation forestry activities in Hinerua Forest including afforestation.

To discharge greenhouse gases into the air from a hide and pelts processing plant from

one gas fired boiler (1.44 MW), three gas fired hot water heaters (313 kW, 428kW, 600kW) and

one wool drier (604kW)

To discharge cleanfill to land within 20 m of the Tūtaekurī River, to clear vegetation within 5 metres of the Tūtaekurī River, and to create disturbance greater than 5 m² within the bed of the Tūtaekurī River

To discharge secondary treated domestic effluent from an RSE accommodation facility and a two-bedroom dwelling into the ground in circumstances where contaminants (or any other contaminants emanating as a result of natural processes from those contaminants) may enter water

To undertake excavation in the bed of the Ngaruroro River as restricted by Section 13 of the RMA

to discharge subsurface drainage water 18 ha or rural land, from a pumped system into Holden's drain

to take and use water from well no. 4029 (100 mm diameter) for supply to a hydroponic strawberry farm and supply for an associated packhouse.

To discharge defrost water, cooling water and stormwater into the Karamu Stream

To carry out gravel extraction works in the bed of the Lower Mohaka River and any associated discharge of sediment to water.

To drill bore 17581 (100 mm diameter) for domestic and stock water use

To take water from well no. 946 (250 mm diameter) to frost protect 7 hectares of horticulture

to take water from well no. 946 (250 mm diameter) to irrigate 7 hectares of pip fruit and for spray fill purposes

to take and use water from well no. 256 (100 mm diameter) to irrigate 6.8 hectares of pip fruit and for spray fill purposes and domestic use

to take water from well no's 16782 and 5687 (300 mm diameters) and well no. 1380 (250 mm diameter) to irrigate 161 hectares of crops and pasture.

to take water from a gallery adjacent to the Ngaruroro River to irrigate 65 hectares of olive trees

to discharge subsurface drainage water from 13.82 hectares of rural land via a pumped system into the open Holden drain.

to take water from well no. 3854 (250 mm diameter) to irrigate 134 hectares of pasture and to supply water to a dairy shed

to take water from well no. 5394 (100 mm diameter), well no. 5421 (125 mm diameter), well no. 5534 (125 mm diameter), well no. 5537 (125 mm diameter), to frost protect 8.2 hectares of viticulture
to take water from well no. 2795 (100 mm diameter) to irrigate 13 hectares of viticulture
To take and use water from the Raupare Stream to irrigate 36 hectares of pip fruit
to take water from well no. 1122 (100 mm diameter) to irrigate 3 hectares of pasture and nursery
to take and use water from the Ohiwia Stream to irrigate 47 hectares of crops
to take and use water from well no. 16000 (100 mm diameter) to irrigate 9 hectares of process crops
to take and use water from well no. 17220 (150 mm diameter) and well no. 4596 (200 mm diameter) for the purpose of providing water for general use in a freezing works operation including processing livestock
to take and use water from well no. 17220 (150 mm diameter) and well no. 4596 (200 mm diameter) for the purpose of providing water for general use in a freezing works operation including processing livestock
to take and use water from an unnamed tributary of the Waipawa River to fill a water storage reservoir, for the subsequent irrigation of part of 145 hectares of process crops
To undertake plantation forestry activities including earthworks, stream crossing and the removal of residual slash that exceed limits within the Orange ESC zone
To drill bore 17582 (100 mm diameter) for irrigation and domestic use
to take and use water from well no. 1766 (200 mm diameter) to irrigate and frost protect 16.24 hectares of horticulture, and for spray fill
to take and use water from well no. 2833 (100 mm diameter) and the Farndon Drain to irrigate 24.91 hectares of horticulture, and for spray fill.
to take water from well no. 1172 (100 mm diameter) to irrigate 10 hectares of pip fruit
to take water from well no. 1279 (100 mm diameter) to irrigate 14 hectares of pip fruit, and for spray fill purposes
to take and use water from well no. 16388 (300 mm diameter) to irrigate 60 hectares of pipfruit, and to augment the flow of the Raupare Stream
To take and use water from well no. 2569 (200mm diameter) to irrigate 11.24 hectares of pip fruit, process crops and pasture
to take water from well no. 1711 (150 mm diameter) to frost protect 6 hectares of horticulture
To take and use water from the Ngaruroro River to fill a dam at 102 – 105 Kereru Road (the "Maraekakaho Dam" or "Upstream Take") and to take water from the Ngaruroro River, by diverting it into a water race, to fill 4 dams located at Maraekakaho Road and SH50 (the "Downstream Take or Downstream Dams") for subsequent irrigation and frost protection and/or to take and use water directly from the Ngaruroro River (via an existing water race, galleries, an open pond and two seepage pits) to irrigate or frost protect up to 840 hectares of pasture and crops, 180 hectares of viticulture and 127 hectares of pip fruit, for spray filling and to augment the Paritua Stream, and for use in a fish farming facility and for stock water and domestic use, and for general farm purposes.

to take and use water from well no. 1551 and well no. 8534 (100 mm diameters) to irrigate 5.7 hectares of kiwifruit, and for sprayfill purposes and building supply use.
to take water from well no. 1551 and well no. 8534 (100 mm diameters) to frost protect 3.3 hectares of kiwifruit, 1.0 hectares of viticulture and 0.7 hectares of stonefruit
to take water from well no. 3515 (100 mm diameter) to irrigate 11.5 hectares of process crops
to take and use water from well no.5823 (150 mm diameter) to irrigate and frost protect 2.3 hectares of stonefruit, and for stock drinking water use.
to take water from well no. 5823 (150 mm diameter) to frost protect 2.77 hectares of stonefruit
to discharge contaminants into the atmosphere from hot dip, dry galvanising operations
to discharge contaminants into the air from a rendering plant and all other associated activities carried out on the site; including odour from three biofilters
to discharge the products of combustion from a 10 MW natural gas fired boiler into the air
to take water from well no. 5977 (150 mm diameter) for use in producing milk refreshments and sports water
to take and use water from well no's. 2044 (200 mm diameter), 1656 (250 mm diameter) and 1383 (300 mm diameter) to irrigate 189 hectares of pasture and to fill a pond
To take water from well no.1521 (100 mm diameter) to irrigate 5 hectares of pip fruit and process crops
to take water from well no. 3165 (100 mm diameter) to irrigate 6.5 hectares of apples, and for spray fill purposes
to take water from well no. 15242 (75 mm diameter) to irrigate 7 hectares of pasture
to discharge subsurface drainage water from 7 hectares of rural land, via a pumped system into Palomino drain
To undertake plantation forestry activities including replanting within Windermere Forest
to discharge subsurface drainage water from rural land, via a pumped system into the Muddy Creek Scheme drain
to take and use water from well no.15158 (100 mm diameter) to irrigate and frost protect 6.4 hectares of pip fruit and 3.4 hectares of stone fruit and for spray fill purposes and domestic use
to take water from well no. 683 (100 mm diameter) to irrigate 6.2 hectares of horticulture, and for spray fill and wash down purposes
to discharge subsurface drainage water from 3.5 hectares of rural land via a pumped system into the White drain on the southern side of Lawn Road
to use land for the purpose of operating up to a 4.47 hectare (net) animal feedlot
to take water from well no. 827 (100 mm diameter) to irrigate and frost protect 1.8 hectares of horticulture
to discharge subsurface drainage water from 1.9 ha of rural land via a pumped system into the Lawn Road drain on the southern side of Lawn Road.
