Are you a Pastoral Farmer? Let's talk TANK

We want to start a conversation with pastoral farmers. We're keen to work with landowners in the Greater Heretaunga territory as we consider our approach to a catchment-based plan change for your area.

Please join us at one of these public evening meetings, from 7.00 - 9.30pm - followed by supper

Patoka Hall - Tuesday 30 August
Sherendon Hall - Thursday 1 September
Maraekakaho Hall - Tuesday 13 September

These sessions are brought to you by Hawke's Bay Regional Council in association with Beef + Lamb NZ.

Evening Outline

- General introduction to the TANK programme, and a summary of water quality issues
- Why it's important for you as a farmer to get involved in the TANK Plan development to manage water quality
- Beef + Lamb overview of industry best practice, especially on sediment management

There will be plenty of time for discussion and questions.
